

Welder Certification Course

Certificate No. 8F

Perform welds using FCAW

Flux core arc welding (FCAW) to code standard carried out using a range of materials. The person would work autonomously or in a team environment using predetermined standards of quality, safety and welding procedures. Butt and fillet welds are produced in all positions. Preparation of materials may include preheating, setting up of jigs, fixtures, clamps, etc. Materials used may include carbon/ manganese steel, low alloy steel etc. on plate, pipe and rolled steel sections. This unit, in conjunction with Unit MEM05026C Apply welding principles, may satisfy the requirements of AS 1796 Certificate 8F.

Course Cost: \$750 - Theory block (MEM05026C)
One week block with trainer
\$750 - Practical

Course Duration: Theory: 1 week (5 days) Block ONLY - 8am - 4:30pm
Practical: 1 week (5 days) 8am - 4:30pm or 18 Wednesday evenings 5-8pm

Course Location: ATEC - Ottoway
275 Grand Junction Road

Course Content: **Certificate No 8F** - Flux-cored Arc Welding (FCAW) of plate and pipe. Includes unit MEM05042B - Perform welds to code standard using flux core arc welding process.

Pre-requisites: MEM05007C Perform manual heating and thermal cutting
MEM05019D Weld using gas tungsten arc welding process
MEM05020C Perform advanced welding using gas tungsten arc welding process
MEM05026C Apply welding principles
MEM05049B Perform routine gas tungsten arc welding
MEM05051A Select welding processes
MEM05052A Apply safe welding practices
MEM09002B Interpret technical drawing
MEM12023A Perform engineering measurements
MEM18001C Use hand tools
MEM18002B Use power tools/hand held operations

Safety Equipment: *To be supplied by the participant*

- Safety boots
- Clear Safety glasses
- Long pants
- Long sleeved shirt
